17. This day has been assigned by the civil authority for the purpose offering up thanks to Almighty God orless ocu of kindness and mercy towards us during the past year. It is present and right that we shook et spent one day in the year to be observed in this way, and we only regret that the day is not observed throughout the country, as a National Thanksgiv-The American people have the fullest cause for graticude, at this time, and they are to God the deerest homage for the extension of His preserving arm over them, during the past year. He has but the breath of pestilence to pass by us all, with the exception of a few foculities; He has saved us from the wildest and most learful domestic discord and confusion; He has allayed the angry spirit of civil war, and He has made we all to feel more kindly towards each other. And while He has done all this. He has severely afflicted us by the removal of our late Chief Magistrate, in order to arouse us from our lethargy. and make us more sensible of our manifold deties? Let His warning voice be bended, and while we have been personally spaced from the visitation of his writin, even though we deserved it, let us to-day humbly offer up the gratitude of earment bearts, and bear to His holy throne such offerings as will be accepta ble to Him, in this day of our prosperity and happiness.

The opening lecture of the course before the Association of Mechanics and Manufacturers, will be delivered tomorring, at the Belleyue Hall, by the Rev. P. H. Hedge, of Providence. We are glad that these popular lectures are to be at the Believue Hall, because it is the most suitable place in town for this purpose; the Hall is sufficiently large to odate all who will probably attend, and every one will be able to see and hear the speaker.

Mr. Hedge enjoys a fine reputation as an all lecturer; he has a strong and brilliant mind and will undoubtedly instruct the milience upon whatever theme be may address them. This is the first time that he has spoken to a Newport audience, as we are confident that he will give the fullest satisfaction to all.

in order to prevent a crowd around www.way.of the Hall, we trust that those who enter first will take reats in the upper part, so as to prevent confusion.

Francisc Valparaise Neighbur Oct. 9. Manney Ann Monney, On Sunday, the **300** pit, a ship entered the bay with colors half mast. It proved to be the Glen of New Haven, Capt. James Small. She had been loading at Africa, and with a cargo of Perurian bark, rained at \$400,000; had started for the United States. On the morning of Sept. 17th at 2 e clock Capt. Small was awakened by a maine on deck and the report of a mushet. As he attempted to go out, he was beid by the motineers, who had airendy killed the second mate, and were three in number armed, to go back. They fired down the companion way

the ball passed by his head. He then stepped back, found his entities and went out the side light of the cabin, not, knowing how many were eagaged in the mutiny. He wounded two men with a cutlass, and the first mate who had been below when the disturbance began coming now to his neristance, be was enabled to secure them Capt. Small then sought to make this port, which he succeeded in doing iza dava. The me ers on board the Preble, and will be sent home by the United States Consul-Col. Patter, for trial. The ship will proceed was her coyage shortly...

The mate was severely wounded in the head, and on one of his hands, with some weapon scemingly a hatchet; but we understand he is doing well. The mutimeers who were secured on deck are Edward E. Dooglas, Thos. Benson. cook, Thee, Williams, boy. They charge who was below at the time with being a confederate with them. The remainder of the crew are thought to be innoment in regard to the transaction. We learn, that in consideration of the bravery and fidelity displayed by the captain on the occasion, the gentlemen who had chartered the ship for the voy age to New York, have presented him with a bandsome gold watch, as a token of the appreciation of his services e of the second mate who was mundated was Asa A. Haven.

Men dies, but nose of his actions ever die. Each is perpetuated and prolonged foreup by interminable results, affecting some hoings in every age to come.

Washington Nov. 26, 1850. The following is Mr. Crittenden's opinion on the late Buston fugitive slave case:

OFFICE OF THE ATTOENEY GENERAL. WASHINGTON Nov. 25, 1850.

То тве Расвівскт-As requested by you I carefully examined all the papers placed in my hands relating to the complaint against Charles Devine marshal of the Massachusett-District, for an alleged neglect and dereliction of duty in failing to execute the warrant which came into his hands for the arrest of Wm. Crafts, the fugi-

These papers, consisting chiefly of the affidavit of Mr. Devine, the marshal, his deputy, Mr. P. Riley, James Dickson, George T. Curtis and Willis H. Hughes, agent for the owner of the slave, with letters from Mr. Fay and Mr. Curtis are herewith returned.

Having perused them with care, and certainly without bias or prepossession in favor of the marshal or his deputy, l must say, that though I can see no evidence of any particular activity or energy on their part, it seems to me there does not sufficiently appear any cause for censure of their conduct or the removcommendable activity and energy might have been exerted by them; but they seem to have acted to a considerable extent upon consultation and in concert with Mr. Hughes, the agent for the owner of the fugitive, and what might otherwise nopear to be blameable in them may have been the result of that consultation and concert.

In this uncertain state of the case the declaration made by Mr. Hughes, at the conclusion of the transaction, that he had no complaints, to make against them or words to that effect, is entitled to and bas had some influence on my judgment. If I could have discovered satisfactory evidence of neglect or invasion of duty by these officers in this case, it would have been no less consonant with my feelings than with my judgment, to have recommended their instant dismissal from the public service.

Very respectfully yours, &c. J. J CRITTENDEN.

TO THE LADIES.

WASHING, BLEACHING AND CLEANSHING FLUID, the greatust labor-saving article yet discovered. By its use, washing machius and boards are roturely dispensed with, and
not one quarter the labor is required to do the
washing of a family.

The Fluid is a chemical compound of sufficient
strength to extract all foreign substances from the
cloth, by simply boiling a small quantity of it with
the clothes, and without the elightest injury to
the most delicain fabric.

The expense is not more than that of the scop
ordinarily used, and be idear this it will be seen
that the great wear and tear of elabring consequent
upon the old method of hard rubling upon a beard,
and the use of the pounding barrel, is wholly woold
ed, and an immeastaring is thur made. It is emphatically the female is friend.
